

All of our Wrought Iron Entry Doors are hand crafted to fit every application.

You may select an existing design, send a sketch or image, or we will be happy to assist you in creating your own custom design.

Doors come as a complete set which includes:

- Insulated frames with thermal injected foam
- Double pane tempered glass
- Threshold
- Pre-hung balanced door jamb
- Weather stripping
- Faux finish
- Heavy duty barrel hinges
- Hinged glass panels for easy cleaning and fresh air
- Door handles or pulls are (optional)

Door specifications:

2" wide x 6" deep door jamb is standard. We can provide 8" or 10" deep jambs upon request.

2" wide x 4" deep door frame is standard

Matching Transoms and side lights also available

Doors are sprayed with hot zinc for rust prevention

Multi-layer finish includes a two-part, anti-corrosive epoxy primer, baked-on automotive-quality paint and a final clear coat to ensure protection from the elements
